LS-600 Film Scanner

The LS-600 is a low capacity scanner for 135 and IX240 film. A TWAIN driver is included as a standard feature, so the unit can be connected to a PC and used as a stand-alone scanner. Connect this unit to a PC with EZ Controller Software and a Noritsu digital printer (both sold separately) to produce a minilab configuration.

- Digital ICE, which corrects dust and scratches on the base layer of film, is included as a standard feature.
- Noritsu Digital Masking, which corrects dust and scratches on the emulsion layer of film, is available as an option.

- Reliable LED light source
- Simple USB 2.0 connection
- Approximately 36.8 lbs.

Film Type	Approx. print size	Scanning resolution (Pixels)	LS-600 Approx. Capacity* (frames/hr)	LS-1100 Approx. Capacity* (frames/hr)
135F (24exp)	3.5" x 5"	1002 x 1512	660	1220
	4" x 6"	1002 x 1512	660	1220
	5" x 7"	2005 x 3024	360	430
	12" x 18"	4011 x 6048	74	110
IX240C (25exp)	3.5" x 5"	1358 x 2039	430	690
	4" x 6"	1358 x 2039	430	690
	12" x 18"	2717 x 4078	160	200

* Calculated according to our criteria. The actual capacity you achieve may be different.
