- Allows you to send images over the Internet to any location with a QSS digital minilab (customer-provided connection required).

NORITSU

CT-2 Consumer Terminal

The CT-2 is a consumer-friendly digital input terminal that fits well into any retail environment. Available in standard or enhanced configurations (future availability), these full-featured units come with advanced software designed for fast transaction times and ease of use. The CT-2 can be used as a stand-alone kiosk or part of a complete self-service photofinishing solution.

SIMPLICITY AND VERSATILITY

Touch screen menus make operation and navigation simple even for first-time users. The CT-2 accepts some of today's most popular storage media including CompactFlash, SmartMedia, Memory Stick, CD-R/RW, SD Card and xD-Picture Card formats. The unit can also save finished images to CD-R/RW and Zip disks for easy archiving.

PROFITABLE

The explosive growth of digital cameras has created a tremendous opportunity in today's retail environment. Digital customers want an easy-to-use way to get prints and from their digital media. With the CT-2, you can build your business with a versatile platform that encourages self-service, reduces staff time and creates increased incremental revenue.

FLEXIBLE

Choose the solution that is right for your needs. The CT-2 is network ready and can serve as front end ordering station for your Noritsu QSS or dDP systems. Or choose the print-on-demand option using the CT-Kiosk and provide your customers with the immediate gratification of instant prints using up to three dye-sublimation printers.

SAVES MONEY AND SPACE

A standard LAN connection is all that is required to link the CT-2 to a QSS digital minilab or dDP Digital Dry Printer. No server or network computer is necessary, which saves on space and reduces your costs. Available as a compact countertop display or an efficient sized kiosk, the CT-2 offers a lot of value in a small footprint.

The CT-2 comes with a host of innovative features. Choose the model that is right for you.
